- Easy to Sand
- Good Flow & Filling Characteristics

Nitrocellulose Surface Filler

JEWELL®
LAYERS OF LUXURY

Armor NC Putty is a high-performance, single-component nitrocellulose putty designed for fast drying, excellent adhesion, and superior surface leveling. It effectively fills minor scratches, dents, and surface imperfections, providing a smooth, uniform matt base before priming and finishing.

KEY BENEFITS:

- ✓ Fast drying for quick turnaround
- ✓ Excellent adhesion on metal and automotive substrates
- ✓ High filling capacity with smooth application
- ✓ Easy sanding with minimal clogging
- ✓ Creates a uniform matt surface ready for primer and topcoat

RECOMMENDED APPLICATIONS: Automotive body repair, metal surfaces, industrial and decorative preparation.

APPLICATION: Apply thin, even layers using a putty knife or spatula. Allow to dry completely, then sand smooth before priming.

FINISH : Smooth, Matt

VISCOSITY: Thixotropic (flow-resistant paste)

SPECIFIC GRAVITY: ~1.5 ± 0.05

COMPATIBILITY: Suitable for NC primer and NC topcoat systems.

STORAGE & SHELF LIFE: Store in a cool, dry, well-ventilated place away from sunlight. Shelf life: Up to 12 months in unopened containers.

SAFETY: Flammable. Use with adequate ventilation. Avoid inhalation and contact with skin or eyes. Keep container tightly closed and out of reach of children.

Single Component Ready-to-use product
